## BUSINESS ORGANIZATION

Stewart and Judy quickly worked through this section: **Business Organization**. Judy had picked up two publications from the B.C.M.A.F.F. office which deal with business organization. From reading both Taxation and the B.C. Farmer and Estate Planning for B.C. Farmers, she had made a few notes and had some questions for the next time they had a meeting with Rhonda.

Stewart suggested that they dig out their registrations and licences and record the particulars on the same piece of paper. They decided to include management details about themselves and their advisors.

Here's what they came up with:

# Business Organization Example
